SNORKELLING ADVENTURES

Snorkelling is one of the best ways to discover the fascinating Maldivian underwater life. Whether a solo venture or one with family, a snorkel pro or a curious beginner, explore the wondrous world that lies beneath the waters at Randheli.

SNORKELLING FOR BEGINNERS

Indulge in a private session with an experienced professional for the perfect introduction to aquatic life. This beginners' lesson is a great way for first time snorkelers or those who prefer shallow waters to explore the lagoon.

SNORKEL SPLASH

For a playful splash and a casual excursion, embark on this tour of a snorkel destination at a nearby reef. Spectacular coral, glimmering fish and crystal clear waters await!

RANDHELI SNORKEL DISCOVERY

Voyage across the magnificent Randheli reefs for an unforgettable underwater adventure. From exotic marine life to reef colours never before seen, uncover another world of Maldivian beauty.

SUNSET SNORKELLING AND NIGHT SNORKELLING

Experience the wonders of the Noonu Atoll reef in a completely new light – at night. With an underwater torch, the colours of the reef come to life in their full splendour. The marine fauna and flora blossom with the awakening of the moon and the special ultraviolet light emitted from a snorkeler's torch.

SUNRISE SNORKELLING

Experience the rising sun in the Noonu Atoll and see how the dwellers of the reef return to their diurnal habits after an active night. Early morning snorkelling is the best time to see some species retain their nocturnal behaviour.
