## BLUE JOURNEYS DIVE AND ACTIVITY CENTRE

Our resort is set in one of the most untouched and beautiful islands in the southernmost tip of the Maldives. A full Park Hyatt Maldives Hadahaa experience is not complete unless you have enjoyed some of the local history, been welcomed into a Maldivian home, fished in our tropical waters aboard a Dhoni – our traditional boat - or have dived beneath the turquoise waters to fully appreciate the vast underwater world living around our untouched coral reef. We don't offer *trips*; we provide tailor-made journeys that are nothing less than 100% pure Maldives.

You could choose to drift to a local island to collect local spices and herbs with the Executive Chef, spend a couple of hours fishing for snapper and grouper onboard the Dhoni to be cooked fresh when you return back to the resort, have a lavish private picnic in a truly remote location on an uninhabited island or set off into the sunset looking for dolphins.

Visit the towering coral reef cities structured like luxury apartments for a kaleidoscope of reef fish. Observe graceful shoals of fish as they dance in the sunlight and change direction in unison in a blink of an eye. Watch Clown Fish nestle in the secure fingers of magnificent anemones or spot the wary lobsters pop their heads out of their rocky homes. Catch a glimpse of the Thick-lipped Wrasse, in all its rainbow glory, enjoy its coral lunches and be amazed by the streamlined finesse of the Black and White Tip Reef Sharks keeping a watchful eye over their territory. The marine life surrounding our island paradise is more abundant and varied than anywhere else in the Maldives – and best of all, it may be enjoyed either close to the surface of our House Reef or deeper down at the fascinating dive sites of this marine haven.

There are so many options – all you have to do is tell us what you'd like to see and we'll create an experience just for you.
