Inspiring a lifetime of rare experiences

At Soneva, our creativity is driven by our guiding principle of 'Intelligent Luxury', which is about understanding what true luxury is for our guests; many of which spend most of their time in urban environments. It is about understanding the daily lives of our guests and offering them experiences that are both 'new' - in that they are rare, unusual and exceptional, but at the same time 'true' in that they are highly desired and cherished.

With our team, we continue to question and challenge what is rare, and hence a real luxury. We have curated the following rare and authentic experiences to help create precious, life-enriching stories and memories.

Hidden among dense foliage within the Baa Atoll UNESCO Biosphere Reserve, Soneva Fushi inspires the imagination with a collection of spacious beachfront villas. Everything about this magical place feels otherworldly, from the crystal clear turquoise water and dolphins at sunset, to the delicious cuisine available at the resort's multiple dining venues.

Nature is nurtured at the resort and each signature experience brings you one step closer to discovering its unadulterated beauty.

Chef Sobah has been with Soneva for many years, and after consistently winning local and international culinary awards, year after year, we gave him his own restaurant, which opens twice per week.

The cuisine is uniquely Maldivian using recipes that have been passed down from generation to generation, and the food is prepared using traditional cooking methods. The ingredients are sourced from what Sobah buys fresh from the fishermen each morning or what he scavenges from the island of Mendhoo itself. After dinner, learn about the starry night sky from our resident astronomer, while enjoying some of our finest digestives.

When time and tide align, fortunate snorkelers get to observe and capture a rolling, whirling feast where it may be possible to see hundreds of these large yet harmless creatures congregate to gorge themselves in the plankton-rich waters. There are also several other locations close to Soneva Fushi where Manta sightings are common, so the exact itinerary of the trip may vary to maximize the chance of seeing these magnificent creatures. Freediving at Soneva Fushi

Freediving is the exhilarating practice of discovering the underwater world using only a single breath. It also gives you the chance to look inside yourselves to increase your inner awareness. Holding our breath in the water naturally leads us to a state of simply being in the moment.

Our Freediving Course is built on the foundation of joy, breath, awareness, relaxation, safety and knowledge. Some Freedivers just do it for fun – to look at the fish and corals or simply to relax. Others want to improve their aquatic skills, concentrating on depth and timings or to overcome fear and build self-esteem. Whatever your motive is, you will find great pleasure in the learning, training and the refined experience of Freediving which also often exposes the hidden potential you can use in your everyday life.

While the technical content of the course is professionally presented, the whole process is meant to be entertaining and in a word “fun” for the participants!

You will most certainly bond with the ocean and it will be surely be “love at first breath”.

You will learn our finning technique – how to propel through the ocean, increase your breath hold capacity, ability to both relax and focus, equalization, and of course safety, which is paramount. In short we use the term -Aquaticity.

You will have a complimentary Private Consultation with our Freediving Instructor, before starting the course. After the basic course is completed, Freediving sessions can be taken ad libitum and of course we are always on hand to help with further techniques as needed.
