MY BLEND FACIAL THERAPY

Skin care just for you

"Life changes, so change the life of your skin!" Because each skin is unique, My Blend offers products that are adapted to the skin's priorities, and are not determined by skin type or age alone. My Blend is the first skin care brand to incorporate lifestyle (climate, sleep, diet, stress and so on) into the development of its formulas.

As close as possible to science

At the heart of the My Blend creams, or Essential Formulas, lies the Cell Synergy complex, a combination of three exclusive peptides that improve the skin's intercellular communication, increase its natural defense potential and strengthen its ability to regenerate. To meet the skin's specific needs, pure active ingredient concentrates called Boosters are added to the creams for rapid, lasting results. More than 400 day-night combinations are possible. To find yours, there is one essential step: the diagnosis.

Technology combined with skillful hands

The My Blend customized approach is based on our exclusive My Skin Diag diagnosis software that questions, photographs, analyzes, diagnoses and prescribes the appropriate skin care regimen in real time. The resulting high-precision skin analysis combined with a questionnaire on lifestyle and habits enables the Beauty Coach to create exactly the right blend for each skin. The results of My Blend formulas are optimized using a subtle, delicate, enveloping application method that combines manual remodelling with the use of expert tools that intensifies the properties of the active ingredients and restimulates the cell cycles.

A re-birth

One glance in the mirror, the face is transformed; the features are rested and smoothed; the facial contours are reshaped, the complexion is luminous. With My Blend, discover a new way to take care of your skin.

MY BLEND FACE CARE

First step: the indispensable Skin Diagnosis leading to customized skin care.
Second step: the My Blend Ritual, in which skilful hands and subtle gestures combine with the precision of expert tools to provide a unique experience.
